

ADRIATIC CRISIS GROWS SERIOUS; POET PLANS WAR

D'Annunzio Plans to Annex Dalmatia and Attack Montenegro.

By Associated Press Leased Wire
London, Nov. 22.—The situation on the Adriatic as a result of Gabriele D'Annunzio's campaign has reached a crisis. Private advices leave no doubt that he is determined to annex Dalmatia and attack Montenegro.

The Jugo-Slavs are stated to have concentrated troops and to be prepared to resist aggression.

Fear of Revolt

Another report says a republican undercurrent directed against the Italian direct their attack against D'Annunzio forces.

It is stated in the advices that further aggression by D'Annunzio will certainly precipitate hostilities with the Jugo-Slavs who however, it is declared, will direct their attack against D'Annunzio and not against the Italian government.

Elections Unfavorable

D'Annunzio, it appears, has been stirred to further efforts by the fact that the Italian elections were unfavorable to his cause. Many adventurers are flocking to his standard, the reports state, and among a certain element there seems to be a desire to make him president of Italy.

Some well informed quarters believe he merely desires to annex Dalmatia for Italy and has no republican ambition.

A late report from Rome says the military party which favors the annexation of Dalmatia has brought such strong pressure to bear upon the government that the situation is delicate.

It is not known however whether the insurgent poet leader shares the reported ambition of this military element to attack the government.

Today's London dispatches supplement advices from Rome received last night which reported the American embassy actively engaged in watching the situation, which was reported as holding the possibility of serious development from hour to hour, as regarded both Italy proper and the Dalmatian coast.

Valice, to which Naval Attache Reeves has gone to report on conditions, is only about 75 miles from Fiume by the water route and nearer yet by the land lines. The possibility of a move into Istria by D'Annunzio was mentioned in recent advices, in which the prediction was made that whole divisions of Italian regulars would be likely to follow him. An Istrian move would take him to the borders of Venetia, in which Venice lies.

Bad Internal Conditions

Italy's internal conditions have been rendered more uncertain by the recent elections, which gave the socialists largely increased representation and were accompanied by disorders in various parts of the kingdom.

The issue is sharply drawn between the nationalist elements which applaud D'Annunzio's Fiume adventure, and the pacifist socialists who are bitterly against any move that will be likely again to involve Italy in war. There have been hints recently that Jugo-Slavs is not likely to remain passive under further penetration by D'Annunzio along the Dalmatian coast, demobilization of her army being suspended.

MILWAUKEE TO STAY DRY, SAYS FEDERAL JUDGE

By Associated Press Leased Wire
Milwaukee, Wis., Nov. 22.—The prohibition enforcement act is constitutional Judge Gelger of the United States district court held today. He enjoined the J. P. Kissingner Co., wholesale liquor dealers, from using its premises for the sale of liquor until the civil suit against the company is tried.

SUITS FLOW FREELY.

St. Louis, Mo., Nov. 22.—Beer of 2.75 alcoholic content was sold freely in St. Louis today following the issuance by Federal Judge John C. Pollock of a temporary injunction restraining the United States district attorney and the collector of internal revenue from interfering with the manufacture or sale of the beer.

United States District Attorney Walter L. Hensley said the decision would be appealed as "speedily as possible."

Carlisle, Bandit, May Be in Denver

By Associated Press Leased Wire
Denver, Colo., Nov. 22.—Possibility that the train bandit, William L. Carlisle, is in Denver was forced upon local police officers today by letters mailed here to Denver newspapers and a postcard addressed to Chief Police Hamilton Armstrong, purporting to have been written by Carlisle.

"Next time you hear from me I'll be in Texas," the postcard said. In his letters to the newspaper, the author said he would try the Denver & Rio Grande railroad next.

Little credence was placed in the letters at first. "That is an old Carlisle trick," said an official of the Union Pacific at Cheyenne. "They are very apt to be genuine." The letters were mailed by special delivery to Cheyenne for comparison with the bandit's hand writing.

DIXON GAS PLANT MAY BE FORCED TO CLOSE BY SHORTAGE OF COAL

Company Issued Warning to Patrons — Must Con- serve on Gas.

The Illinois Northern Utilities Co. today issued a warning to patrons of the gas company in Dixon that curtailment in the use of gas is very necessary and that there is a possibility of an entire shutdown of the gas plant because of lack of coal.

For several months the standing weekly orders of this company, as well as other concerns using coking coals have been but about 50% filled, and in some cases much less has been received. To obtain relief from this condition "spot" coal has been bought where available, but in spite of this effort stocks have steadily depleted, until with the coming of the coal strike, and the shutting down of mines producing this grade of coal, conditions became immediately critical.

Exports Were Heavy.

This condition is due in a large degree to the immense tonnage of this grade of coal exported during the season to European countries. Gas or coking coals are especially suitable for export, and a very considerable proportion of the total mined has been moving to seaboard in clean prepared sizes, while the same grade has been refused to those having contracts for prepared coals in this country.

The result has been that even before the present strike made its effects felt, there was not enough of this high-grade coal above ground to fully supply the domestic demand, let alone building up reserve stocks.

The local gas plant has made every effort for the past five or six months to build up a reserve stock, but the above conditions prevailing over the country have prevented the accomplishment of this purpose.

COMPTON YOUTH ARRESTED UNDER SERIOUS CHARGE

Turnkey Joe Miller returned to Dixon last evening from Chicago bringing with him Harry Marquis, who is wanted in this county to answer to a charge of grand larceny, preferred against him by L. E. Bradshaw, of Compton. Marquis is now in the county jail pending the action of a Chicago attorney, who is said to be here in the interests of the prisoner.

Marquis is a brother-in-law of Joseph Kauffman, who formerly conducted the general store in Compton, known as the Compton Mercantile Co. and which is now being conducted by John Archer. At the time that Kauffman disposed of his interests to Mr. Archer, Marquis was present in Compton and assisted with others in invoicing the stock. L. E. Bradshaw was in charge of invoicing the stock before the business changed hands.

Details Of Charge.

While the stock was being invoiced, it is charged that several articles of value were taken from the store and before the business changed ownership, it was learned that two large boxes had been shipped to Marquis at Chicago. Marquis is said to have left Compton very suddenly about the time the boxes were shipped. Mr. Bradshaw went to Chicago and succeeded in locating Marquis, who, when confronted, is said to have admitted having the goods and returned some of them to Mr. Bradshaw. After returning to Compton Mr. Bradshaw made a further investigation of the invoiced stock, and it is said, it was found that several other articles of value were missing and Marquis was suspected as having removed them from the store and shipped them. Mr. Bradshaw came to Dixon Thursday and Justice Grove Gehant issued a warrant for Marquis' arrest, charging him with grand larceny. The warrant was handed over to the sheriff's office to serve and Turkey Joe Miller went to Chicago yesterday morning, returning with his prisoner last evening.

DOUBT SANITY OF MAN HELD IN POISON PLOT

Rochelle, Ill., Nov. 22.—Charles Burright of this city, held in the county jail on a charge of attempting to cause the death of the five months old daughter of Mrs. Ethel Parker by poison. It is said he has twice tried in other years to take his own life. He is about 45 years old and is a barber.

VAULT IN FRANKLIN GROVE BANK BLOWN BUT ROBBERY FAILS

Nitro-Glycerine Failed to Open Outer Door to Big Vault.

Bank robbers last night failed in an attempt to blow the vault of the Franklin Grove bank, of which W. C. Durkes is president and S. A. Durkes, of Franklin Grove is cashier, when a charge of nitro-glycerine which they had poured into the combination lock of the outer door of the vault failed to open it.

The attempt at bank robbery was discovered by the bank employees when they opened the institution this morning. The robbers, who probably gained entrance to the building through a window, had made no attempt to get into the big burglar proof safe, but apparently had devoted their attention solely to the vault.

Missed Release Bar.

They had drilled into the door near the combination dial, evidently in an effort to be able to force back the release bar with some small tool, but they miscalculated and missed this bar by a fraction of an inch. They then resorted to nitro-glycerine, pouring a charge of "soup" into the inner doors of the vault, but not releasing the bars on the outer door, which were further locked by a safety device which had automatically set when they first attempted to force an entry. The combination of the outer doors was demolished and it required the work of an expert to open them.

The robbers obtained nothing for their trouble, the bank officials announced today, and the damage to the vault is not large. Residents of Franklin Grove report having heard a muffled explosion about 3 o'clock this morning, but those who heard the shot paid no particular attention to it. There is no clue on which the officers can work.

RATION SUGAR TO NATION TO AVERT FAMINE

Atty. General Given Hoover's Food Con- trol Authority.

By Associated Press Leased Wire
Washington, D. C., Nov. 22.—Sugar has been placed under war-time restrictions and will probably be rationed to the people in an effort to avert a threatened sugar famine. Because of the gravity of the situation President Wilson has revived the war-time food control laws, still in effect, and has transferred authority of the food administrator to Attorney General Palmer.

With the new cloak of power, the attorney general can exercise jurisdiction over all food supplies if he considers it necessary. He will not do this, it was said, except as an extreme measure and will confine his present duties toward regulating sugar distribution.

Heavy purchases for foreign account were said to be the chief cause for the present sugar shortage. The United States has been securing 3,000,000 tons Cuban sugar annually, but this year, it was reported, European dealers have purchased more than 1,000,000 tons from Cuba and continued foreign buying might cause a dearth of sugar for the United States.

WM. J. OLIVER IS CALLED BY CREATOR

News was received here of the death of William J. Oliver, who was employed here for a time at the F. Overstreet jewelry and was a great favorite with Dixon young people. He died at the Grace Hospital, Detroit Sunday, Nov. 2, following two operations and was taken to his home in Norway on the following Thursday for burial. He was the son of Mrs. Ellen T. Oliver, of Norway. His father died a year or two ago. He was a member of the Dixon chapter, O. E. S., and of the Elks club here and his funeral was in charge of the Masonic and Eastern Star orders.

Murder Suspect Taken After Many Months

By Associated Press Leased Wire
Philadelphia, Pa., Nov. 22.—Elmer Lewis, wanted for the murder in February, 1918, of William Bunnell in a political club, is in custody here today. He virtually was kidnapped from Chicago, where he was arrested.

Lewis, known to the police as "Kid" Lewis and alleged to have a criminal record, resisted removal from Chicago to forcibly it was necessary to shackle him for the journey. Lewis fled from Philadelphia. It is learned he drifted to Chicago, where he opened a saloon and became so prosperous that he brought two garages.

The police learned Lewis had been arrested in Chicago as the head of a band of automobile thieves, several stolen cars having been found in his garage.

LEE CENTER FIRE.

The residence of Junior Frost of Lee Center was threatened by fire Thursday afternoon when the chimney burned out and ignited the roof. The blaze was extinguished before it had reached serious proportions.

Mr. and Mrs. Gilbert Spratt entertained at dinner recently at their home north of Franklin Grove. George Gibson and family and Miss Minnie Trainer, all of Dixon, and Mr. and Mrs. Gibson, of Franklin Grove, were guests.

"JACK" FLEMING MOTORMAN, GETS LONG VACATION

First Step Toward Re- tirement—Drove First Car on S. D. & E.

Motorman John Fleming of the Sterling, Dixon & Eastern Electric Railway Co., who drove the first car over the line in the spring of 1904 and who has been in the service of the company continuously since that time, has taken the first step toward retirement from work in which he started when mules were the common means of propulsion for street cars. He has applied for and has been granted a leave of absence until April 1. The rigors of winter have in the past several years proven very severe on the veteran, and when he recently contracted a cold while on his run between this city and Sterling he decided it would be better to quit before he was taken seriously ill.

Accordingly he tried to resign, but Supt. A. W. Courtney instead of accepting the old employee's resignation gave him leave of absence with provision allowing his return to the company on April 1, without the loss of seniority rights. It is understood that he plans to spend the winter with his son on his farm in Wisconsin, and the friends of the popular motorman do not anticipate that he will return to the service in the spring.

Known To All Patrons.

"Jack" Fleming, as he is affectionately known to every patron of the road, is as familiar a sight to them as the cars themselves. He came to Dixon with Henry C. Higgins, promoter of the S. D. & E. and John Powers, superintendent during its construction and first few years of operation. He began railroading behind a span of mules on a car in Wisconsin, and when electric cars were first tried out on the line on which he was working "Jack" was at the controller. He drove the first electric car in Milwaukee; it is stated, and later helped open a number of new lines in Wisconsin.

When the first car was operated on the local interurban system in May, 1904, "Old Jack" was on the "front end," and since that time through storm or fair weather, he and his smile have been steadily on the job. The best wishes of hundreds of patrons of the road will go with the old gentleman as he takes his long vacation and probable retirement.

MEXICO IS EYED BY U. S. WAITING FOR AN ANSWER

By Associated Press Leased Wire
Washington, Nov. 22.—Although the note sent by the American government to the Mexican government Wednesday demanding the immediate release of William O. Jenkins, American consular agent at Puebla, was delivered to the Mexican foreign office the same evening, the Mexico City press yesterday said Jenkins still was in the penitentiary it was announced today at the state department.

Washington, Nov. 22.—Mexico continued today to be the object of sharp vigilance at the State Department pending an answer from the Mexican government to the note warning that further molestation of William O. Jenkins, the American consular agent at Puebla, who was twice arrested in connection with his abduction, by bandits, would seriously affect the relations between the United States and Mexico.

No reports regarding Jenkins had reached the State Department early today, but it was believed that he would be released as a result of the note. Jenkins was charged by the Mexican officials with being in collusion with his captors. Officials here declare an investigation had failed to show grounds for such charges.

No reply to the American note has been received and there was no indication when one would be made.

Officials reiterated today that the department had received no information from the Puebla state authorities that Jenkins was in collusion with the bandits who held him for \$150,000 ransom.

The Mexican foreign office has advised the state department that it is taking action in the case of Eugene Lack, an American citizen, who was fatally shot at Mexico on Nov. 1.

The state department announced that Lack was connected with the office of the sheriff of Imperial county, California, and that a dispatch to the department said the shooting was unwarranted.

No Breach Between Wilson and Hitchcock

By Associated Press Leased Wire
Washington, Nov. 22.—Secretary Tumulty issued a statement today emphasizing the fact that no breach had occurred between President Wilson and Senator Hitchcock. He characterized the latter's leadership in the treaty fight as "masterly" and "satisfactory to all friends of the administration."

The secretary also denied that the president was taking sides in any contest over the minority leadership in the senate.

SUN WAS ECLIPSED.

REPUBLICANS WOULD CARRY TREATY ISSUE INTO NEXT CAMPAIGN

Capital Speculates on Out- look for a Treaty Compromise.

By Associated Press Leased Wire
Washington, Nov. 22.—Whether compromise efforts are to be made to ratify the peace treaty, or the whole controversy thrown into the 1920 presidential campaign for decision, was a question which aroused lively speculation today in official and political circles.

It was agreed that the statement issued last night by Senator Lodge, the republican senate leader, declaring the time for compromise had passed and that it was his desire that the majority reservation program be carried into the campaign, had advanced materially the movement to leave the treaty situation just as it is for the present and give the people a chance to decide the issue next year.

The first expressions of administration senators regarding the statement were defiant in tone, though they still predicted that before the campaign began the republicans would come into a compromise agreement that would make ratification possible.

"If the republican leader wants to make a political issue," said Mr. Hitchcock, "of course he will not compromise. But if he really wants the treaty ratified, he will make a reasonable effort to compromise. The question is one of partisanship or patriotism."

Senator Hitchcock predicted that President Wilson would resubmit the treaty at the beginning of the next session of congress on December 1, and that a compromise would result.

Will Compromise?

By Associated Press Leased Wire
Washington, Nov. 22.—Democratic Leader Hitchcock in a statement replying to the declaration of Republican Leader Lodge that the peace treaty issues should be settled in the coming session, said today that he was confident a compromise would be worked out by which ratification could be secured.

Senator Hitchcock's statement follows:

"Senator Lodge expresses an ardent wish to carry the treaty and the reservations which the senate defeated into the campaign as an issue.

"I regret to say that Senator Lodge is evidently thinking more of politics than he is patriotism.

"To my mind the highest interests of the United States and of the world demand satisfaction of the treaty."

"The reservations to which Senator Lodge refers do not even receive a majority vote of the senate although the party which Senator Lodge leads controls the senate. His party is split on ratification in the senate as well as throughout the country. The reservations were not framed for the purpose of ratifying the treaty. They were framed for the purpose of making it impossible for many supporters of the treaty to vote for ratification in that form.

Aids Voted "No."

"The reservations were supported by 15 senators who would not vote for the treaty under any circumstances and who voted against every form of ratification. Those senators after helping Lodge to force these reservations upon the senate voted 'no' when the resolution containing them came to a vote.

"Reservations in the ratification of the treaty are inevitable, but they must be framed and agreed to by Senators who expect to vote for ratification. When the senate meets in December there will be 81 senators out of the 96 who favor ratification in some form. They are the ones to decide on what the reservations should be. When 64 of those senators can agree upon reservations, as I believe they can agree, ratification will take place.

Belasco Fined \$1,340 for Playing "Daddies"

By Associated Press Leased Wire
Chicago, Nov. 22.—What is said to be the largest fine ever assessed in Chicago for violation of the child labor law was imposed today by Municipal Judge George B. Holmes against David Belasco, theatrical manager, owner of the play "Daddies" and the manager of Powers theatre, where the piece was shown in Chicago when they were fined \$1,340 on 163 separate charges. Five children under 16 years of age appeared in the play.

The defendants were fined for every appearance of the children on the stage during its four weeks run in this city.

MORE INDUSTRIES ARE CLOSING BECAUSE OF FUEL SHORTAGE TODAY

Factories of Central West Being Tied Up By Min- ers' Strike.

By Associated Press Leased Wire
Chicago, Nov. 22.—Additional shutdowns of industrial plants, mainly in the central west, today were in prospect as the approximately 425,000 striking bituminous coal miners began their fourth week of idleness, and the operators-miners wage scale conference at Washington remained deadlocked.

More encouraging reports from West Virginia and Colorado were received but from the other soft coal fields no indication came of an intention to resume work. With the supply being shortened daily, however it was agreed among officials that if disaster was to be averted something must be done quickly to add to the relatively small quantity of fuel now being brought out.

More than 1700 carloads of coal were received in Chicago from the east yesterday, but was held for release only to public utilities and indispensable industries. In emergency some of it would be released to homes.

Pestilence and death would result from the freezing up of apartment houses and other places cut off from coal, Louis T. Orr, chairman of the coal committee of the Chicago Real Estate board said, adding that hundreds of such buildings are getting close to the bottom of their bins.

INDIANA CURTAILS

By Associated Press Leased Wire
Indianapolis, Ind., Nov. 22.—Sweeping curtailment of the use of coal and electric power has become necessary in Indiana to prevent complete suspension of industry within a short time, and half time operation of all manufacturing plants in Indianapolis probably will become effective next week.

A meeting of manufacturing interests was held at the chamber of commerce today to decide the extent of curtailment. The action follows orders from the regional coal director denying coal to consumers outside the first five classes of the fuel administration's priority list. It was pointed out, in connection with the contemplated reduction of operation that denial of coal to some plants while others of the same class were allowed to operate full time with electric power would be unfair.

There has been no change in the situation in the coal fields.

EXPECT DECISION

By Associated Press Leased Wire
Bismark, N. D., Nov. 22.—A decision by the Supreme Court is expected today on a petition filed yesterday afternoon by William Lemke in behalf of Gov. Frazier, asking that Judge W. L. Nuesse of the district court of Burleigh county be restrained from enforcing his injunction ordering the state to surrender control of the Washburn Lignite Co., property at Wilton at 2 o'clock next Monday.

The action, in which the governor seeks to intervene for Adjutant General G. A. Fraser and Capt. Baird, who as military officers were in actual possession of the Wilton mine, has attained added importance in view of the fact that the governor also is seeking to enjoin the thirty-four lignite coal companies against which he proceeded last week. The injunction which he asks would prevent the coal companies from interfering with state operation of the mines.

TAKE MINES FROM STATE.

By Associated Press Leased Wire
Bismark, N. D., Nov. 22.—The North Dakota supreme court today sustained the action of District Judge W. L. Nuesse, of Bismark, in ordering Gov. Lynn J. Frazier and Adj. Gen. Fraser to immediately return to the private owners the Lignite coal mines which have been seized and operated by the state.

Judge Nuesse's order compels the state officials to relinquish their claim of the mines by 2 o'clock Monday afternoon. The supreme court denied the application of William Lemke, vice president of the Non-Partisan League, acting as counsel for Gov. Frazier, for an injunction restraining Judge Nuesse from enforcing his order.

Co-operative System Coming in U. S., Says Timber Worker Chief

By Associated Press Leased Wire
Chicago, Ill., Nov. 22.—Oscar McGill, Seattle, representative of the co-operative movement among timber workers in the state of Washington, speaking at the second and final day's session of the conference of farmer and labor bodies of the country here today, declared a nation-wide organization of the co-operative system is the next logical step in industrial reconstruction in the United States.

"Exactly the same thing that is happening in Europe is taking place in this country," said McGill, who recently returned from abroad where he studied industrial conditions in England and France. "Workingmen are everywhere demanding the right to be represented in the management of industry," he said.

By Associated Press Leased Wire
Decatur, Ill., Nov. 22.—Macon county farmers will lose \$1,000,000 on the 1920 crop of wheat through Hessian fly damage, County Farm Adviser Sidney Smith announced today after a personal investigation of the fields. Of the 40,000 acres the damage to fields is from 5 to 100 per cent.

OPERATORS HOT OVER PROPOSAL OF 31 PER CENT

Coal Wage Conference Postponed Until Mon- day—See Garfield.

By Associated Press Leased Wire
Washington, D. C., Nov. 22.—Soft coal operators will not proceed further with negotiations for a new wage scale agreement until Fuel Administrator Garfield has been consulted, they announced today. The joint conference between operators and miners called for this afternoon was postponed until Monday pending consultation between the operator's committee and Dr. Garfield.

"We are awaiting Dr. Garfield's pleasure," said Phil H. Penna, member of the operator's committee.

BREACH WIDENED.

Washington, D. C., Nov. 22.—Bituminous coal operators in the central competitive field declared today that Secretary Wilson's proposal to the joint wage scale committee yesterday had served only to widen the breach between the operators and miners.

"There are only a few more words to say and they will be said very soon," declared Thomas T. Brewster, chairman of the operators, before entering the meeting of the operator's scale committee.

Proposed 31% Increase.

It was understood that Secretary Wilson had proposed to the miners and operators yesterday an increase of 31.2 cents a ton for coal diggers and \$1.38 per day for laborers. Some operators said this was wholly unsatisfactory to them.

After the scale committee adjourned, the operators would make no formal statement, but some said privately they would go into session late today with the miners' representative with a definite policy.

John L. Lewis, acting president of the United Mine Workers of America, would not discuss Mr. Wilson's proposal, saying that it was agreed that happenings at the conference at which Mr. Wilson's offer was made were to be regarded by both sides as confidential.

PROGRESS IS MADE?

By Associated Press Leased Wire
Washington, D. C., Nov. 22.—Theoretically the operators and miners today were where they were when the conference was called in an effort to settle their differences on wages and working conditions for the miners. Actually, however, it was believed, progress had been made and that an agreement shortly would be reached.

"The breaking of the ice" on both sides, when each faction of the dispute modified their proposals, was taken as an indication that both were willing to "give and take" in an adjustment of the differences that have thrown the bituminous coal fields into chaos.

At 2 o'clock today, Secretary Wilson again presides over a joint conference of the operators and miners in the role of arbitrator. He was expected to suggest a compromise in the two offers of the principles and recommend a wage increase of about 31 per cent. The operators have offered a 20 per cent wage increase and the miners agreed to accept a 40 per cent increase.

EXPECTED SETTLEMENT.

By Associated Press Leased Wire
Springfield, Ill., Nov. 22.—Predictions of an early settlement of the coal strike were received here today from Stephen Sullivan, president of the Springfield sub-district of the United Mine Workers, who is in Washington attending the conference of miners and operators. Sullivan telegraphed miners' officials that he expected an agreement on a 31 per cent increase and that work would probably be resumed within three days.

STRIKE IN COLORADO.

By Associated Press Leased Wire
Denver, Colo., Nov. 22.—Seven hundred coal miners in the northern Colorado fields left their work today, according to their leaders, "on an indefinite vacation," demanding union recognition.

Denver has been depending to a great extent upon northern fields on coal and if the men do not return to work a serious fuel situation will exist here, according to coal dealers.

Properties of the Colorado Fuel & Iron Co., in Fremont county and at Crested Butte, Colo., were closed today when six hundred employees walked out alleging discrimination against union men.

SUNSHINE CLASS MEETING—

Mrs. A. J. Kay entertained the members of the Sunshine Class, of which she is teacher, at her home Thursday evening. Eighty members and friends gathered at her hospitable home, an exceptionally large attendance. Class colors, blue and gold, were used in the charming decorations. Rev. J. McCulloch, of Nachusa, opened the class meeting by prayer and a short business session followed. Mrs. Nelson was made chairman of the social committee. The Sunday school orchestra was present and opened the program with a pleasing number, "Gibraltar." "The Touch of His Hand On Mine," was sung in unison by the school. Miss Ethel Kay played a beautiful number, "The Soldier's Dream." The child at the Nachusa orphanage which the class is clothing prettily recited, "The New Minister." Heartly appreciation met the selections given by Earl Senneff on the trombone, "Somewhere a Voice is Calling," and, as an encore, "The Rosary." The orchestra followed with a number, "Cupid's Call." Miss Schweser, teacher of the Nachusa orphanage, who always reads so charmingly gave a selection from "Anne of Green Gables" at this time and later gave, "How We Hunted a Mouse." Mrs. L. C. Johnson gave a pleasing double number, "One Fleeting Hour," and "My Dear." Miss Ethel Kay read an extract from the magazine, "Pioneer Class Encourages Every Line of Organized Work." "Our Centennial's Birthday," was the title of a reading given charmingly by Mrs. Dubuque. The Misses Mildred Page and Lucile Frye and Len Boyer gave two beautiful trio numbers, "Sweet Spirit, Hear My Prayer," and "Old Black Joe," the latter as an encore. Miss Grace Johnson pleasingly rendered a double piano number, "The Return of the Gondoliers," and "Scherzetto." Miss Lucile Frye rendered a pretty piano number. Two cornet solos were given by Raymond Smith, "I Trovatore," and as an encore, "Way Down in the Deep Cellar." The chorus, composed of class members, sang "America's Message," as the closing number. Mrs. Kay, assisted by Miss Ethel Kay, Mrs. John Daehler, and Mrs. Whitish, served excellent refreshments after the program.

DR. MURPHY BEFORE CLUB—

An address on the subject of Public Health was given at the Amity Women's club meeting Monday by Dr. E. S. Murphy of Dixon, president of the Lee County Tuberculosis Sanatorium Board. He dealt mainly with the causes and prevention of epidemics of contagious diseases such as typhoid, influenza and tuberculosis; and paid a tribute to the service rendered by Pasteur and his associates in their discoveries regarding germs and their connection with disease. He also called attention to the public health service that has been rendered by women throughout the world's history, and stated that there were distinguished women physicians and surgeons as early as the thirteenth century.

SOME PATRONS OF U. S. GET REFUNDS

Postmaster Hogan today mailed out 54 refund checks to Dixon parties who ordered bacon when the government list of groceries was opened here late this fall. It will be recalled that the last three shipments of bacon received sold for less than the original price as fixed by the government department and this is accountable for the refund checks which were mailed out this morning.

Persons who received bacon in the first shipment of supplies paid the price originally fixed by the government and are not receiving the refund checks. The entire list of groceries ordered by Dixon people has been received and distributed and in cases where the goods were not available or the supply had been consumed, refund checks have been mailed.

CHARGE CASHIER WITH \$400,000 STEAL AT CRETE

Locks Bank Examiners in Room and Beats It in Automobile.

By Associated Press Licensed Wire
Chicago, Ill., Nov. 22.—The Illinois State Bank of Crete, Ill., today failed to open and it was announced a warrant charging embezzlement had been issued for the missing cashier, Gust Kracke, in connection with thefts of more than \$400,000.

The bank was capitalized at \$25,000 and had known assets of approximately \$300,000. "The vault door and the janitor are left—that's about all," said a state bank examiner after the books, including a duplicate set in a vault to which none but Kracke was said to have access, had been gone over. Speculation was blamed for Kracke's alleged speculation.

Two days ago the bank examiners went to Crete to examine the institution after Andrew Russell, state auditor, had recovered an anonymous letter saying: "There's some funny business going on up here at the Illinois State Bank of Crete. Better send on an investigator."

Kracke, according to the examiners, received the demand, turned over his books, keys and unlocked the vault. "I'm going across the street a minute—just make yourselves at home," he told them.

An hour later the examiners were locked in the building and Kracke had driven away in his automobile. He has not been heard from since, so far as is known.

Henry Meier, president of the bank, suffered a heart attack when told of the cashier's disappearance and was said to be in a serious condition.

William Salter, chairman of the board, said that while a warrant had been sworn out for Kracke's arrest, it was desired "to give him every chance to return and face the charges."

Russian Rehabilitate Old Homes in Crimea

By Associated Press Licensed Wire
Constantinople, Saturday, Nov. 15.—"Delayed"—Exiled Russians are trying to re-establish their old homes, particularly in the Crimea, where the bolsheviks did not destroy everything.

The summer Palace of former Czar Nicholas at Livadia is intact although the nearby town of Yalta was badly demolished. The great white stone structure is furnished as it was when the former Czar last visited it four years ago. Only the pictures have been removed to safety. The furniture is covered with linen to protect it from the elements.

Crimea is full of refugees from towns along the Moscow front and there is plenty of food here and no hunger such as prevails in Vienna, Armenia, and Georgia.

BUSINESS BEFORE PLEASURE AT OPERA HOUSE TONIGHT

At the Dixon opera house tonight will be seen the greatest comedy hit of the decade. "Business Before Pleasure" will be the play and it is safe to say that no comedy that has played this town in years will register the success it will achieve. "Business Before Pleasure" is an A. H. Wood production and A. H. Woods name is analogous with success in every case in which he has attached his name to a play. Abe Petash and Maurice Perlmutter, the two principal characters in the comedy are classic in their delineation of the parts. The other members of the cast are of metropolitan standard and have achieved success in many Broadway productions. Critics have been unanimous in proclaiming the production of "Business Before Pleasure" one of the best they have seen.

CONCERT MONDAY EVENING

Dixon can count itself fortunate in having the opportunity to hear Betsy Lane Shepherd, the celebrated soprano, in a concert Monday night at opera house. Mrs. Shepherd is gifted with a beautiful clear voice and she promises to sing some of the greatest successes for Dixon folks. "Heart Songs" are one of Betsy Lane Shepherd's specialties. Just what heart songs are is a question very hard to define. Somebody says they are songs which go straight to the heart—not a very lucid explanation to be sure. However, that may be, most any song rendered in Betsy Lane Shepherd's clear, tender voice will go straight to your heart, and music lovers will rejoice in this unlooked for opportunity to hear Mrs. Shepherd sing. The concert will be an invitation affair.

BLACKSTONE THEATER, CHICAGO

"Jacques Duval" gives Mr. Arliss the character of a superhero of science—a doctor with a genius and a position for scientific research. He has devoted his life to a discovery of a serum that will infallibly cure tuberculosis, even in its last stages, and he has completed his work when the play opens. His people attitude toward sentiment and his eternal laboratory work have caused his pretty wife to feel that she is neglected, and she has fallen in love with a romantic young medical student, a dilettante with artistic tastes, and a title. The doctor soon discovers this attachment.

How the lover comes to the doctor for treatment with a dangerous case of tuberculosis; how he refuses the cure because he will not accept his life as a gift from the man whose wife he hopes to steal; how the doctor treats him as a patient instead of a rival and gives him the serum; how the lover dies and thus brings about a crisis which threatens to ruin the great discovery—these are some of the elements in a strong plot that has some unique aspects. In the end, the doctor's greatness, of soul tested so severely, wins back the lost love of his wife, who at last begins to understand him.

The engagement in Chicago will continue indefinitely at the Blackstone theater. A long run is expected, for the play is giving Mr. Arliss the greatest hit in his brilliant career.

ROCKFORD AUTO FACTORY

Rockford is to have a big automobile factory in the very near future, according to announcements made in that city last night. The new company is to be financed for \$200,000 or more by local men, and a modern factory is to be built in the southeastern part of the town at once. The concern will manufacture a light six-cylinder car.

SANDRA THE JEALOUS

By JANE PHELPS.

JUNIOR'S FIRST ACCIDENT CHAPTER CXXXII

"I wasn't brave, not a bit!" I declared as Everett held me in his arms. "I couldn't help saying what I did but I am so glad."

"Glad about what?"

"That I said it, because," I hesitated, and buried my face on his breast. I had been about to say, "because it made you show your love for me," then my pride wouldn't let the words come, and I flushed; because it pleased you."

"It did please me, dear, very much. It showed me I had not been mistaken in my idea of you—what you would do. I did not care what that woman might say; Leola has been dead many years, poor girl, and for years you have been my wife. But I do care a great deal to know that I have a brave, right-minded wife." He kissed me again before he let me go. "Curiosity, if nothing else would have led many women to keep quiet until they knew what she had to say. I am very proud of the way you showed your faith and trust in me."

If only, instead of all that praise of my action, he had whispered words of love; had said he loved me, instead of saying he "was proud of me." I should have been so happy that the incident would have passed from my mind. But he had not, and next day when all stress of emotion had passed I reverted again and again in my mind to what Mrs. Currie had hinted, and wondered what could have been in that letter Leola had written her husband that had made her think it would change Everett's attitude toward me.

Then I became indignant. What right had Miss Lane to carry tales? I never stopped to think that I had been more discreet. Miss Lane would have had no tales to carry. Several times she had heard me crying, and I am sure had surmised I was unhappy. She was with us a long time before Leola's picture had been taken down, and may have espied me looking at it. The hatred I felt, the jealousy I could not hide, showing in my face.

Junior was just learning to walk, and that morning had his first serious fall, so putting Mrs. Currie, that letter and Miss Lane out of my thoughts.

He had toddled out of the nursery when Miss Pierce had stepped into the next room, and had fallen down stairs. He was not hurt, but was badly frightened, although not as much as I was. "While I was brooding, my baby might have been killed," was the thought in my mind—exaggerated, of course. But it seemed again that nothing mattered but him. I would forget that woman who had died so long before I met Everett. I would be happy. It was my right.

I had sent for the doctor immediately, then telephoned Everett. They arrived almost simultaneously. Everett, who as a ghost, the doctor calm and untroubled.

"Fell down stairs did he? Well, my little man, you are beginning to get bumpy early," the doctor said as he took Junior on his knee. He looked him all over, and decided he had not injured himself at all, altho his little face was still tear-stained from crying.

"You are sure, Doctor?" Everett asked, his voice unsteady.

"Of course I am. The boy's as right as a trivet."

"Thank God!" I heard Everett mutter then: "I shall send a man at once to put a gate at the head of the stairs."

"Won't need it right away. The little rascal will remember his tumble and keep away from the stairs for a time."

"I shall feel safer to have it done."

After they left I suddenly realized I had not seen Miss Pierce since she had come running down stairs after Junior. Now I called, and she came to me, her eyes swollen, looking pale and most unhappy.

"Oh, Mrs. Graham, I feel so to blame! He isn't hurt, is he? I didn't dare come down while the doctor was there. I was so afraid he would find something wrong. I didn't see how he ever had time to get as far as the stairs!" and talking Junior in her arms she hugged him close, her tears falling on his face.

"Oo's eye," he lisped, his tiny fingers wiping her eyes.

So I left them, and went back to my room resolving never to give way to my unhappy feelings again. I had my home, my husband whom I loved—even tho he did not love me as I longed for him to—my precious baby. It was wicked of me to repine.

As I have said, it is so easy to make—and break—good resolutions.

AN ANT AS A MODEL.

We suppose that in their colonies the
ant workers feel that the welfare of
the race depends wholly upon them,
the ant soldiers have the feeling that
without them the ant world would per-
ish, the ants which turn over the eggs
and play nursemaids to the infants be-
lieve—so far as ants may nourish con-
victions—that the whole blessed work
proceeds only because of their high
sense of responsibility. The discipline
and habit of ages probably alone saves
the colonies from class warfare, tests
of class strength, rivalries for supreme
power.

In the last half-century the indus-
trial nations of mankind have been en-
ergetically engaged in making a divi-
sion of duties. It has encouraged spec-
ialization. It has drawn narrow lines
between trades and professions. It has
split up labors so that, while produc-
tion has been increased enormously and
the sum of human knowledge has been
added to exceedingly, we have most of
us become mentally one-sided. Each
trade feels that it alone keeps the world
moving. Each profession believes itself
all-important, other professions of no
particular importance in the scheme of
things. So we have a sort of occupa-
tional warfare if not class warfare. We
have strikes as tests of labor strength,
maneuvers of capital and finance in at-
tempts to acquire supreme power.

The ant colonies succeed with minute
divisions of duties, with specialization
carried so far as to involve physical
modification of the ant body. Will hu-
man life succeed along the same line?
It is doubted, and we may note today
endeavors here and there to bring
classes to an understanding of one an-
other, to vary and change men about in
their occupations, to obtain for leaders
citizens who are broadly experienced
and mentally well rounded. Man is a
thinking creature. To establish a dis-
ciplined world after the pattern of the
ant colony involved the suppression of
thought to a minimum.

IF STRANGER TRIES THIS GAME ON YOU CALL THE OFFICERS

Details of the operations of a shrewd
grafter who is working in this vicinity
and who may strike Dixon and attempt
his game here have been made known
through the press of cities where he has
operated, and should the fellow show
up in Dixon, citizens on whom he tries
his game should at once call the police.
Concerning his modus operandi one pa-
per says:

He appears at a home and informs
the people that he is a doctor and has
been sent out by the government to ob-
tain "statistics" as to the health of a
community. He asks a number of ques-
tions which show that he has a smat-
tering knowledge of the human system
and then he proceeds to frighten people
concerning their alleged condition of
health. As a result of his visit he
usually gets some one who pays him a
fancy price for "information" as to how
to get well, and also for a small vial of
medicine which he guarantees to cure.
In one home where the fellow appeared
he informed the woman of the house
that she had Bright's disease and that
she could not live for more than ninety
days, if that long if she did not pur-
chase some of his remedy. The woman,
of course was frightened by the state-
ment of the "quack" and was willing to
purchase some of the "cure-all." A
check was offered in payment, but he
would not accept it, stating that he
must have the ready cash. The woman
did not have the money and he would
not leave the "medicine." The woman
was anxious to get some of the medi-
cine and asked the man to leave his
card or address and she would call for
it but he refused to do so. At several
other homes the same man appeared
and his actions and conversations were
the same.

HALL IS DECORATED FOR ELKS' BIG FAIR

The annual Elks fair will open this
evening at Rosbrook's hall. The special
committee on decorations worked all
day yesterday, putting the hall in shape
for the week's run of the fair. The doors
will be closed Monday evening, this be-
ing the regular meeting night and a spe-
cial program is to be enjoyed by the
members at the club rooms.

The fair last year was called off on
account of the war activities and a spe-
cial effort has been made to make the
affair this year the best in the history of
such events. A number of new and
novel features are to be introduced at
the fair which concludes next Saturday
evening.

SICKELS TELLS OF LIFE WITH HUNTERS

Dr. E. A. Sickels arrived home last
night from northern Minnesota, where
a group of Dixon men are hunting big
game. The Dixon physician was called
home on professional business. He says
he left the campers in high spirits and
with prospects of splendid hunting.
Small game is plentiful this year and
there are many deer. At the time he
left, Dr. Sickels said the party had killed
five deer. The game was credited to
the guns of Sheriff Frank Schoenholz,
Lex Hartzell, Chas. Sheffield, Dr. Sick-
els and one of the guides.

E. T. BAILEY MAKES HIT IN CALIFORNIA

The latest issue of the Lyceum News
shows a very good likeness of our for-
mer fellow townsman and Y. M. C. A.
secretary, Elwood T. Bailey, and has
the following to say regarding him:

Elwood T. Bailey went to California
at the close of the chautauqua season
on a short vacation. While in Los An-
geles he spoke before the Lions' club
in joint session with invited members
of the Rotary and Advertising club. Mr.
Bailey spoke on "Americanization" and
so great was the interest which his ad-
dress aroused that he was urged to stay
over and speak before an audience to
be composed of members of the Rotary
club and their wives. Because of the
necessity of getting back to Chicago to
enter upon his work for the present
Lyceum season he was not able to ac-
cept this invitation.

Mr. Bailey's time is completely book-
ed for the entire season. Many of his
engagements are return dates.

Mr. Bailey was in California during
President Wilson's tour and occupied
a place on the platform when the presi-
dent delivered his address at San Diego.

BURIAL OF FORMER DIXON LADY SUNDAY

The funeral of Mrs. Mary McClure
Bowley, widow of Edward T. Bowley,
residents of Dixon for a number of
years was held at 2:30 o'clock this after-
noon at the home of her daughter, Mrs.
Lillie Lockwood, 226 W. 61st Place, Chi-
cago, where she died Thursday. The
remains will be brought to Dixon tomor-
row afternoon and interment will take
place in Oakwood cemetery.

Mrs. Bowley was the ninth and last
surviving of thirteen children of Thom-
as and Rachel Townsend McClure, and
was born July 4th, 1835, at Montour
Falls, at the foot of Seneca Lake, N. Y.
Montour Falls was named after the
half bred Indian queen of the Senecas,
Catherine Montour, who came from
Canada, her father being a French offi-
cer and mother an Indian. The Indian
town was first known as Catherine
Town and the Indian queen was buried
here in the McClure burial ground.
Years before the government opened up
this territory for settlement by treaty
with the Indians, Thomas, William and
John McClure, brothers, the latter the
grandfather of Mary McClure Bowley,
pre-empted 500 acres of land, including
McClure's Glen—a rival of Watkins'
Glen close by—and Montour Falls, N. Y.,
and here the McClure's and Bowleys,
now scattered throughout the United
States, gathered from New Jersey and
Pennsylvania and "married and multi-
plied." The McClure family, essentially
Scotch, came to America in the 17th
and 18th centuries and many members
took part in the wars of 1776, 1812 and
1861. Mary McClure married Edward
T. Bowley February 15th, 1854, at Mon-
tour Falls, and four children, nine
grandchildren and six great grandchil-
dren survive here; her children being
Prof. S. T. Bowley, Rock Island, Ill.,
Mrs. Emma Mittenbuhler, Mrs. Lillian
A. Lockwood, Bertha B. Ours, Henry J.
Bohn, all of Chicago, with whom de-
ceased has lived for thirty years past.

An incident of interest in this con-
nection was that the McClure family was

related through blood to the three fam-
ous newspaper men of their time, James
Gordon Bennett, Henry J. Raymond
and A. K. McClure.

W. N. Andrews returned last evening
from a short business visit in Chicago.

CHRISTMAS Is Just Around the Corner

Delightful anticipation of the joy of giving to
loved ones, is in the air, hastily dispersing
whispered conferences among members of the
family indicate it, innocently adroit question-
ings as to ones preferences for this or that
article suggest it, ones' own state of mind
proves it.

This Year

mighty little question exists as to ANYTHING except the choos-
ing of the Gift that will be MOST pleasing; one knows there'll be
a world of joyous pleasure among those who receive his Gifts.

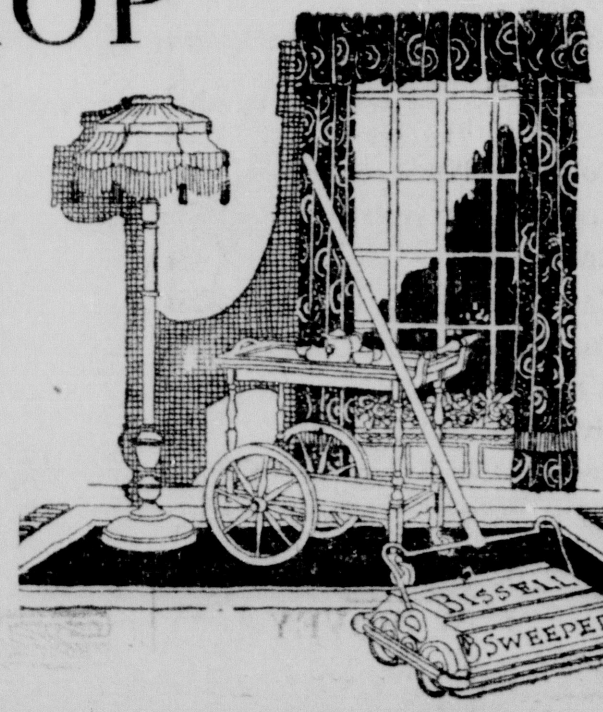

The Fact

that there IS an added pleasure when the article MOST desired
is received, lends satisfaction to giving, if that DESIRED Gift
may be the one happily chosen.

PLAN BIG PARADE AS PART OF TURKEY DAY GAME DEMONSTRATION

Sterling and Dixon High Schools Meet in Closing Contest.

The coming week will see the close of the Dixon High school football season and in their final engagement the team will clash with Sterling at the Brown Shoe Company's gridiron Thursday, Thanksgiving afternoon. Three of the dependable members of the team will be back in the harness Monday and take part in the grilling workouts that will continue until the eve of the final contest.

Wagoner, who has started at the half back position and who has been absent from the training lately on account of a dislocated ankle, will be back in the lineup. Bremer, who has been suffering from a broken nose, has sufficiently recuperated to be in the game, as is Jones, who has also been absent with a bad ankle. The drill for the final game will start Monday afternoon in all earnestness. Coach Vezina expects to have his original lineup in the pink of condition for this game.

There have been some reports circulated to the effect that Sterling will present a weak lineup, but this is contradicted by the Dixon coach. Two men who were classed as ineligible at the time Dixon defeated Sterling are now on the eligible list and will add greatly to the strength of that team on Thursday. Other members of the Sterling team who have been out of the game with injuries have recovered and will be in the lineup Thursday.

The season is to close with a grand parade and celebration which will precede the game. The Dixon players have secured the services of the Dixon Municipal band, which will head the parade which will start from the high school building after dinner, making a detour through the business section and terminate at the playing field. Several of the students have planned floats which will appear in the parade. Tickets have been placed on sale at several downtown stores and a record attendance is expected at this, the final game of the season.

Plan Basket Ball Team.

Material for a representative basketball team from the Dixon High school appears to be plentiful, and the school expects to turn out the strongest five this season that has ever been organized here. With the football season rapidly drawing to a close and with but one game left to play, that with Sterling on Thanksgiving day, there is considerable speculation as to who will constitute the first basketball team.

Coach Vezina announced this morning that the schedule for the season has practically been completed and some of the fastest teams in this section of the country have been booked. The opening game of the season will be played here on the evening of December 19th, when the Monroe, Wis., High school five, one of the fastest in southern Wisconsin, will oppose Dixon. Games have also been scheduled with Geneva, Clinton, Sterling and Mendota.

No official call for material to make up the first team has been made and will not be given out until the close of the present football season. Prof. Bates will doubtless have an active hand in organizing the first team. It is the present plan to conduct a series of class tournaments, during the course of which material will be selected to constitute the first team. Some of the basketball enthusiasts, who are not interested in football are doing some work in the school gymnasium as well as at the Y. M. C. A., getting ready for the opening of the official schedule.

Organize Town Team.

A town basketball team, composed of former High school and Y. M. C. A. stars has also been formed, and already some games have been booked with Sterling, Amboy, Rockford and Rochelle independent organizations. The Dixon team, which will be known as the Dixon Athletic Club, has signed contracts to go to Chicago to meet the Argonne-Meuse team, an organization of ex-service men, and that team will come to this city for a return contest. The men who have already signed to play with Dixon are:

IOWA TEAMS MEET

By Associated Press Leased Wire
Iowa City, Ia., Nov. 22.—The Iowa State College and University of Iowa football teams met here this afternoon in their annual contest. The entire squad of 35 from Ames arrived last evening and was in good condition for the fray.

ILLINOIS-OHIO BATTLING TODAY ON HEAVY FIELD

Title of Western Conference at Stake—Betting Even.

By Associated Press Leased Wire
Columbus, O., Nov. 22.—Ohio State and Illinois eleven met today to decide the championship of the Western Conference for 1919. No gridiron engagement in the west transcends in importance the duel between these two premier teams of the "Big Ten."

The weather was warm and a fine rain fell. The field was soggy from a heavy rain last night.
Six hundred Illinois supporters arrived on a special train early today. Wagering on the game was moderate and no odds were demanded by either side.

The probable lineup:
Ohio State Pos. L. E. Reichle
Myers L. T. Petty
Huffman L. G. Applegran
Pixley L. G. Depler
Nemecsek C. Livendahl
Trott R. G. Ingwerson
Spier R. E. Carney
Flower Q. B. Bob Fletcher
Stinecomb L. H. Ralph Fletcher
Bliss R. H. Walquist
Harley (C) F. B. Crangle
Williamam F. B. Crangle

Scores of general admission ticket holders stood in line all night in order to get good seats.
They didn't seem to mind the rain, and their ranks were increased greatly shortly after daylight.

About 8 o'clock the rain stopped, the wind shifted and the weather grew colder. Indications were there would be no more rain.

HARVARD LEADS YALE IN BETTING ON GAME TODAY

Great Crowd Witnesses Annual Battle of Eastern Team.

By Associated Press Leased Wire
Cambridge, Mass., Nov. 22.—Harvard and Yale approached the annual settlement of their football claims today with the players primed to make their utmost effort.

Approximately 50,000 football-mad spectators streamed out to the Harvard Stadium to watch the teams in their first contest since 1916. Thousands of others, disappointed, because of their inability to procure tickets, awaited the outcome on the streets or in gathering places where bulletins were posted.

The Crimson entered the game as the favorite. The results against Princeton showed Harvard the stronger, but Yale's admirers believed the Blue was due for a big come-back.
The probable line-up:
Harvard Pos. L. E. Reinhardt
Phinney L. T. Dickens
Sedgewick L. T. Dickens
Woods L. G. Acosta
Havemeyer C. Callahan (C)
Clark R. G. Galt
Kane R. T. Walker

INDIANA IS CRIPPLED

By Associated Press Leased Wire
Bloomington, Ind., Nov. 22.—Indiana University's football team will enter its game with the strong Syracuse eleven today in a crippled condition, due to injuries received by Captain Minton, Fullback Kyle and Quarterback Mathys in the game with Northwestern last Saturday. Today is "home-coming day" for Indiana alumni.

MINNESOTA IS FAVORITE

By Associated Press Leased Wire
Ann Arbor, Mich., Nov. 22.—Minnesota ruled the favorite in today's gridiron battle with Michigan, the first meeting of the old rivals since 1910.

Today's game was the final contest for eight of the Michigan veterans under Coach Yost. Sparks, Weston, Knode, Cruise, Froemke, Peach, Glenn Dunn and Cress will either graduate next spring or complete their allotted

three years of college competition with Minnesota.

SECOND PLACE AT STAKE

Chicago, Nov. 22.—Second place in the "Big Ten" conference standing was at stake when the Wisconsin and University of Chicago eleven met here today.

Today's game marked the passing from college football of Captain Higgins, Elton, Graham and Hutchinson of the Chicago team, and probably MacDonald, Hinkle and Reber. The last three may compete next fall if they wish because of their army service.

NO MORE JAZZ DANCES ALLOWED FREEPORT

Good-bye to the "Shimmy dance," the "bunny hug," the "ootie crawl," the "jazz jazz," and all similar dances in Freeport. The new city ordinance which puts a ban on that kind of performance at dances became effective there this morning. The ordinance also prohibits girls under the age of 18 attending dances unless accompanied by their parents or guardian, and there is a severe penalty for anyone representing to be the parent or guardian of such girl. Pass out checks from public dances are forbidden, the same price must be charged for girls as for young men, all public dances must close at midnight and all will be under the surveillance of an officer.

The day of the "jazz" stuff is fast waning. Eastern dancing masters and music writers are endeavoring to get away from the weird and fantastic dancing which has pruned the country for several years and to go back to the waltz and two-steps which were at one time so popular. It is also predicted that there will be a big change in the music and that the dreamy waltz will replace the runaway fox trot and one-step.

THE PRINCE'S WELCOME.

By Associated Press Leased Wire
London, Eng., Nov. 21.—Appreciation of the welcome extended the Prince of Wales in the United States was expressed today by Earl Curzon, secretary for foreign affairs.

"There could be no surer indication of the depth of the real friendship which unites the great English speaking nations," he said. "England rejoices in this new manifestation of mutual affection and esteem."

WON'T INSURE BOOZE.

By Associated Press Leased Wire
New York, Nov. 21.—Thefts of liquor have become so numerous that many of the largest insurance companies here have decided not to issue any more specific liquor policies. A general

household policy, however, still covers liquor.

Since prohibition has been in effect burglars have ignored jewelry, cutglass and fine linen in preference for wine, brandy and whiskey. The companies say that claims for losses have been inflated. One official said: "We must be satisfied that the liquor was stolen and not consumed at a party or by employees in the household of the man who makes the claim."

The CHENEY

FUNDAMENTALLY different from ordinary phonographs, The Cheney makes an addition to the home that is of ever increasing pleasure and value. For the longer you own a Cheney the sweeter its tones become, just as an old violin surpasses a new, untried one.

The very acoustic principles of the violin which give it its purity and serenity of tone have been incorporated in The Cheney. Thus, The Cheney becomes more prized the longer you own it, and unlike any other phonograph:

"The Longer You Play It The Sweeter It Grows"

To really appreciate Cheney Tones you should hear them. A piano record, one of the most difficult tests of a phonograph, sounds like a piano on The Cheney. Orchestral records have not only all of the vim and zest of the music but the very color and timbre of tones that you would hear if you listened to the orchestra itself.

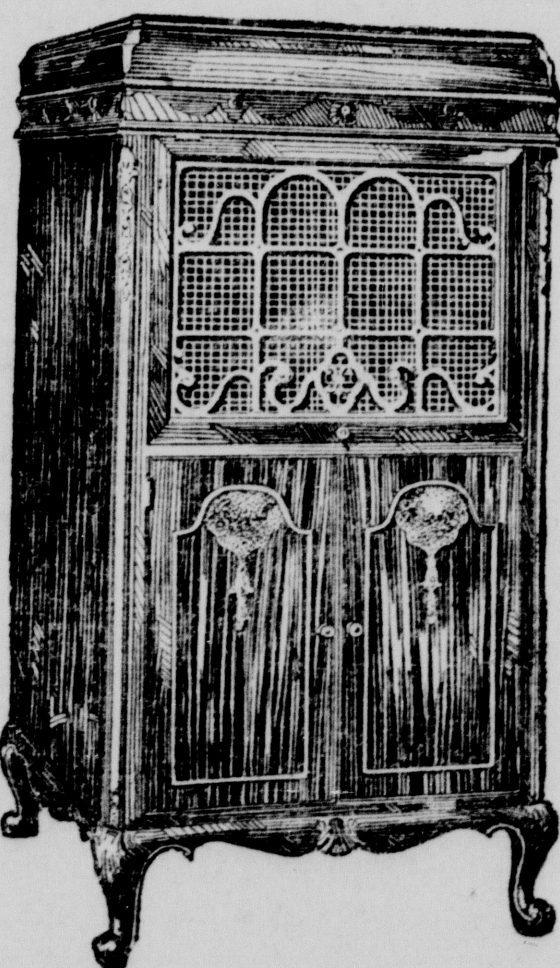

Vocal records have color, quality, and richness ordinarily lost in a reproduction. Best of all, The Cheney places all the music of the world in your home—it plays all records.

Hear it if you would really appreciate what Cheney inventions have contributed to tone reproduction. Basic patents protect Cheney improvements—they have no imitations.

Regular Models, priced \$85 to \$365.

continued during next week, beginning each evening at 7:30. The general theme of the Bible lectures will be "The Future of the World, As Described in the Bible." There will be seven lectures in the series and they will be an interpretation of the book of Revelation. Rev. Mr. Unangst will answer the following questions: "Will peace be taken from the earth?" "Is the world approaching its greatest famine?" "Will the kings and rich men suffer as well as the common people?" "How will the Millennium be ushered in?" "Will there be another revolt against God after the Millennium?"

Those not attending church elsewhere are most cordially invited to come to these meetings. Since the thought is closely connected it will be an advantage if you can arrange to hear the entire series of sermons.

NAB SUGAR PROFITEERS

By Associated Press. Leased Wire.
Chicago, Nov. 21.—Rates fixed on sugar by the Chicago fair price committee will not govern federal prosecutions for profiteering. Charles P. BAR NIGHT WORK.

By Associated Press. Leased Wire.
Washington, D. C., Nov. 21.—The International Labor Conference has gone on record as favoring a broader construction of the Berne Convention of 1906 prohibiting night work for women.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus relieving bladder disorders. Cold Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

FIRE IN LEAVENWORTH.

By Associated Press. Leased Wire.
Leavenworth, Kas., Nov. 21.—Military authorities here today prepared to investigate the origin of a spectacular fire at the federal military barracks late last night that caused property damage estimated at considerably in excess of \$100,000.

The fire started in the prison exchange, destroying the building and a large quantity of army supplies. The flames spread to the cantonment barracks and burned 14 of the frame structures in the enclosure. Dynamite was used to stop the spread of the fire. The buildings burned were erected in 1917 at a cost of \$220,000.

FOCH TO SENATE?

By Associated Press. Leased Wire.
Paris, Nov. 21.—Marshal Foch has been offered the nomination for senator in the department of Finistere, according to the Presse De Paris, which says

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried, some days headachy, dull and sluggish; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sore bills and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

COMMEMORATE ITALY—

U. S. MERCY WORK
By Associated Press Leased Wire
Rome, Thursday, Nov. 20. — Marble tablets commemorating the construction of a sanatorium containing 1,200 beds for tubercular soldiers with contributions from the American Red Cross and Italian War Relief funds were unveiled here today. General Albrici, minister of war, represented the government, while H. Nelson Clay, of Boston, the historian, represented America.

General Revazza, commander of the army corps of Rome, expressed the gratitude of Italians to America and Capt. Johnson, military attaché at the American embassy, said the building symbolized the affection of America for the Italian people and its admiration for the great part that Italy played in the war. There was great applause when several American and Italian ladies pulled the cords which withdrew a screen of flags from before the tablets. The Italian and American anthems were played.

Corn Depressed But Rallies at Finish

Chicago, Nov. 22.—Government moves to cut the cost of living had a bearish influence today in the corn market. Additional shutdowns of cereal food manufacturing establishments owing to coal shortage tended also to depress values. Eastern shipping demand and word that some corn had been sold at New York for export put a check, however, on declines. Opening prices, which ranged from 1/4c to 1/2c lower, including December at 1.30 3/4 to 1.31 and May at 1.23 3/4 to 1.24, were followed by a slight rally. Oats were easier with corn. After opening a shade to 1/2c down, including December at 74 1/4 to 75c, the market showed but little power to rally. Higher quotations on hogs gave relative firmness to provisions. Buying was chiefly of lard.

Subsequently, anticipations of a settlement of the coal strike led to a decided upturn. The close was unsettled, 1/4c to 1 1/2c net higher, with December 1.31 1/4 to 1.31 3/4 and May 1.25 1/4 to 1.25 3/4.

Weekly Grain Review.

By Associated Press Leased Wire
Chicago, Nov. 22.—To much greater extent than usual, corn prices this week have reflected disturbances in financial and industrial conditions. Net changes for the week were: corn 3/4c decline to 1 1/2c advance, oats a shade to 1/2c down, and provisions varying from 1/10c lower to a rise of 3/10c.

Aside from the violent effect of successive tumbles and recoveries in foreign exchange and in general securities the main influence on the corn market was the rapidly growing shortage of coal. At first the dwindling of coal supplies tended to lift the price of corn, inasmuch as fears were expressed that the crop movement would be delayed. Later, though, knowledge that lack of fuel had resulted in shutting down manufacturing establishments, which were large consumers of corn tended plainly to weigh down values in the corn market.

For the most part, oats merely paralleled the changes in the corn market. Talk of foreign repudiation of purchases of lard was a special source of weakness in provisions.

Roads Warned to Prepare for Return

By Associated Press Leased Wire
Washington, Nov. 22.—Railroads under federal control were warned by the interstate commerce commission today to revive their rate handling machinery because of the impending return of the properties to private operation.
The notice pointed out that with the return of the roads, former regulations of the commission would be restored and that each individual line would be required to prepare and file joint rates, classifications and concurrences with other carriers as if there had been no interruption of private operation.
